

Specification - digital TV Cards

		DVB-C / PLUS	DVB-T / PLUS	DVB-S / PLUS
Product	TV Station / TV Star...	Dig. Cable	Dig. Terrestrial	Dig. Satellit
	Tuning Aera:	analog Video-in*		
	external Sources:			
Hardware:	Interface:	PCI		
	Tuner:	Philips DVB-S / T / C		
	Chipset:	Philips SAA 7146		
	Videoformat:	MPEG (Size and format supporting by TV Stations)		
Audio	Channels***	Twin (2 Languages), Stereo, AC3 (DolbyDigital)		
Connectors	Aeria Input	Digital Cable	digital Terrestrial	digital Satellit
	Aeria Output	x**		
	Composite Video-in	over S-Video Adapter*		
	S-Video-in	x*		
	CI-Connector	X*		
Software	TV Software	GlobeTV digital & Globe Data (TV, Radio, Data)		
	DVD Authoring	DVD Authoring SONIC MyDVD LE*		
Receiver Support	TV	4:3, 16:9 ***		
	Pay TV	with optionally CineView Modul, CAM Modul and Smartcard*		
	HDTV in MPEG2 standart	Full size*** (supportet by Display)		
	Radio	digital Radio Channels		
	Data	Data Support (ex. Internet)		
	EPG	Electronic Program Guide over Timer Record Interface		
	Teletext	Full featured Teletext with pages store		
Video - and Audio-formats***	ts (Transport Stream)	complete Transport-Stream		
	mpg (MPEG)	MPEG Video/Audio		
	mdd (MPEG/AC3)	MPEG Video / AC3 (DolbyDigital) Audio***		
	pva (PES Video/Audio)	Packetized Elementary Stream		
	m2v (MPEG Video)	MPEG Video		
	mp2 (MPEG Audio)	MPEG Audio		
	ac3 (MPEG AC3 Audio)	MPEG AC3 (DolbyDigital) Audio***		
User Interface	TV Display:	Window, free scalling, Fullscreen, Desktop TV		
	TV Display Informations	One Screen over Keyboard		
	Design	Direct selection over General Setting		
	Tuning Informations	Signal Quality, Transmitter		
	Teletext	In separate Window		
	Language	multilanguage, direct selection		
General Funktionen	Channellists	in Group, individual (Favorit)		
	Timeshift	x		
	Channel Selection	Up, down, latest program		
	Qucik Record Button	x		
	Teletext	Pages store as Picture, Text or HTML, single / all		
	Audio	separate volume control with On/Off button		
Tuning Options	Channel Search	automatic / manual		
	Channel- / Transponderlists	individual editing, Import		
	Import over external Sources	SatCoDX, DVB2000		
Record and Playback:	Menue	separate Record / Playback Menue		
	Timer Record	Programmable, manual or over EPG		
	Record Format Selection	direct or over General Settings		
	Record over external Inputs	with SONIC MyDVD LE*		
	File Split	individual slection		
	Playback	Single File, List (with Store), selectable, Slow and Fast Motion		
Status	File Size, Record Time			
Supportet Operating Systems:		Windows 2000, Windows XP		
Scope of supply:		TV Card, Composite Adapter*, Installations Manual, Software CD		

* = only PLUS Versions, only TV Station products

** = Aeria Signal loopthroughed and repeatet, when the PC run,

*** = depending from TV Station
